

**Math Concepts HW #4 9.10.13 SHOW Your Work in your math spiral (except for \* questions).**

- 1) Write "40 divided by 8" three different ways.      2) Write "2 divided by 5" three different ways.  
3) Write "40 multiplied by 8" three different ways.

**Find each answer, showing your work.**

4)  $45 \cdot 9$       5)  $(88)(11)$       6)  $\frac{320}{10}$       7)  $(2)(3)(4)$       8)  $5 \cdot 5 \cdot 5$       9)  $9\overline{)225}$

10) the sum of 65 and 37      11) the product of 788 and 4      12) the quotient of 788 and 4

13) the difference of 788 and 4      14) the quotient of 2035 and 5      15) the product of 28 and 82

16) The microbes in the lab double every 24 hours. If there are 10 microbes on Monday at 3 am, find the number of microbes on Friday at 3 am.
